SUMMARY

Fresher with a strong foundation in Java programming, Data Analytics, and Full Stack Development. Skilled in problem solving, data handling, and building basic web applications. Eager to learn new technologies, improve development skills, and contribute effectively to a professional software development team.

SKILLS

Languages: Java, Python, C, SQL, HTML, OOPs, DBMS, DSA

Tools: Git, GitHub, Figma, Power BI, Excel, Power Query

PROJECTS

IOT	Accident Detection System The Accident Detection System automatically detects vehicle accidents using sensors and sends instant alerts to emergency contacts. It uses GPS to capture location and a GSM module to transmit accident details, enabling quick response and improving road safety.
UI Design	Smart Parking System Designed a mobile-first UI to simplify parking discovery, slot booking, and navigation in urban areas. It allows users to view real-time availability, reserve slots, make secure UPI/Card payments, and track booking history. Focused on a minimal, readable design and smooth end-to-end user flow using Figma.

EDUCATION

2023 - 2024	Higher Secondary Education Completed with 84.6%	Christ King Girls Higher Secondary School
2023 - 2027	Bachelor of Engineering Pursuing with a current CGPA of 9.2 (92%)	Prince Dr. K Vasudevan College of Engineering and Technology

INTERNSHIP

Data Analytics Internship Worked on data processing, cleaning, and visualization of datasets. Applied analytical techniques to extract insights and support decision-making. Gained hands-on experience with data handling tools and reporting methods.	Adventure Technology (2025)
---	-----------------------------

CERTIFICATIONS

Core Java Certification	Uniq Technologies (2026)
Cyber Hygiene Workshop	

ACTIVITIES

Secretary – Web Nexus Club Served as Secretary of the Web Nexus Club, coordinating technical events and web development activities.	
National Service Scheme (NSS) Active NSS volunteer involved in community service, awareness campaigns, and outreach programs.	
Symposium – Smart Health System Attended a symposium on Smart Health Systems and explored IoT-based healthcare solutions.	SRM Institute of Science and Technology

AWARDS

Throwball (College) Secured First Place representing the college team in the throwball tournament.	Sports
College Day Award Secured First Place in College Day function competitions and received a certificate.	College Function

LANGUAGES

English	Professional Working Proficiency
Tamil	Native Proficiency
